Introduction

"A wise man once said, "if anything in a man's life, there are two things he shall do;

1. Paying taxes and 2. Be counted".

"In a census, one shall be counted."

Article 4 part (k) of the Niue Statistics Act 2009 provides for the arrangement of the undertaking of a census of the population and households of Niue in 2006 and every 5th year after. Article 11 (1) of the Niue Statistics Act 2009 also stated that "a statistical survey shall be made only with the written approval of cabinet." Cabinet's approval was obtained on June 7th 2011 (CM10 618) and arrangements for the census were made immediately and the Niue Population and Household Census 2011 was held from September 9th to 11th. The 2011 Census was coordinated and implemented by the Statistics Niue Office. The census moment was declared to be the midnight connecting Saturday September 10 and Sunday 11 September 2011.

The Niue Census of Population and Household 2011 was one of success. This success was attributed to the collaborated efforts of everyone on Niue; the leaders and heads of government departments, villages and homes, and the enumerators of the census. Fakaau lahi mahaki.

Our special thank you to the Pacific Adaptation to Climate Change program (PACC) of the Department of Environment for the great assistance in co-funding this important project contributing to its success. Fakaau Oue tulutulou.
